PRESS RELEASE

Delta Conveyance Design and Construction Authority Awards Contract to Hernandez, Kroone & Associates, Inc.

HKA is Poised to Provide Professional Services in Support of California's Ambitious Waterfix Project

San Bernardino, California, February 2019 — In October of 2018, Hernandez Kroone and Associates, (HKA) was one of three firms in the State awarded a contract by the Delta Conveyance Design and Construction Authority (DCDCA) to provide Survey, Mapping, and Right-of-Way Engineering and Title Services for the Waterfix project. The contract is valued at \$25M by the DCDCA which is a Joint Powers Authority whose member agencies are Public Water Agencies. Under the direction of the California Department of Water Resources, the DCDCA's sole purpose is to design and construct the California WaterFix. The WaterFix is an infrastructure upgrade project that will improve the reliability and sustainability of California's aging water system, improve river flows and benefit the Sacramento-San Joaquin Delta (Delta) ecosystem.

"This win reflects our long-standing goal to contribute to the growth and health of the infrastructure in the State of California," said Richard Hernandez, PE, PLS, one of the Principals at Hernandez, Kroone & Associates, "This is a very exciting project and we're looking forward to getting right to work for the DCDCA."
